

Institutional Climate Finance Committee Governance Structure

To effectively perform its role as the National Designated Authority (NDA) to the Green Climate Fund (GCF), Eritrea requires an institutional framework that ensures strategic oversight, cross-sector coordination, and operational efficiency. The proposed framework is designed to align with GCF requirements while being adapted to Eritrea's institutional context and national climate governance structures.

Climate Finance Committee Governance Structure

Picture 1: Eritrea Climate Finance Committee Governance Structure.

1.NDA Secretariat:

Host Institution: Ministry of Land, Water and Environment (MoLWE).

Overall Role: Acts as the central operational hub for the country's interface with the GCF, enabling coordination, pipeline development, stakeholder engagement, monitoring, reporting, and communication.

Core Responsibilities as per GCF mandate: The Minister of Land, Water and Environment and the GCF & UNFCCC Focal Point are the NDA signatory for the No Objection Letter (NOL). Upon proposal appraisal through application of the review process in consultation with the Steering Committee, the Minister or the GCF Focal point will provide final approval and endorsement of the NOL.

Key Responsibilities:

- Serve as the main communication channel with the GCF Secretariat, ensuring all submissions (accreditation applications, concept notes, full proposals) follow country-owned processes.
- Pre-screen project submissions, endorse and issue No-Objection letters for funding proposals, ensuring alignment with national priorities, laws, environmental & social safeguards, gender policy, and transparency practices.

- Develop, maintain, and regularly update a GCF Country Programme / Project Pipeline that aligns with national climate strategies (e.g., Nationally Determined Contributions (NDCs), adaptation/mitigation plans) and GCF Investment Criteria.
- Convene, coordinate and maintain multi-stakeholder consultations (government ministries, private sector, civil society, academia, vulnerable groups) to identify priority sectors and projects.
- Oversee implementation of GCF environmental and social safeguards, gender policy, and monitoring frameworks.
- Manage monitoring, evaluation and reporting: keep data on all GCF-funded and pipeline projects; prepare annual progress reports; disseminate information in accessible formats and maintain transparency.
- Oversee the in-country readiness/ preparatory support activities: capacity building, institutional strengthening, systems and procedures.

2. Advisory and Coordination Bodies

2a. National Climate Change Steering Committee

Chair: MoLWE

Overall Role: An inter-ministerial committee which is responsible for overseeing and guiding the implementation of climate change activities in Eritrea. Its tasks are to provide strategic oversight, policy direction and ensure high-level coherence of the climate finance agenda across sectors and ministries. This committee also will periodically appoint Technical Review Committee (TRC) members from its constituent line ministries for the purpose of reviewing project concepts and funding proposals submitted to the NDA (see details below).

Members: Key ministries, authorities, and other government entities (Finance, Agriculture, Energy and Mines, Health, National Development, Forestry and Wildlife Authority, Marine Resources, Local Government, Transport and Communications, Civil Aviation Department Meteorological Services Agency), Civil society and AF/GEF focal point.

Key responsibilities:

- Endorse national priorities for climate finance, including the GCF Country Programme and project pipeline.
- Ensure alignment of GCF activities with national development and climate policies.
- Ensure inter-ministerial coordination and policy coherence across sectors (e.g., Environment, Finance, Agriculture, Infrastructure, Energy).
- Support the mobilization of co-financing and domestic resources for climate action.

2b. Technical Review Committee (TRC)

Overall Role: Act as technical evaluators and platforms for multi-stakeholder input to ensure that proposals are technically sound, aligned with national policy, socially inclusive and environmentally robust.

Members: Experts from relevant ministries, academia, technical institutions, and CSOs.

Key responsibilities:

- Review project concept notes and funding proposals for technical soundness, climate rationale, and alignment with national plans and GCF investment criteria.
- Provide recommendations to the NDA Secretariat for endorsement and submission to GCF.
- Facilitate stakeholder engagement via consultations, drawing from government, private sector, CSOs, academia, vulnerable groups, to provide advice and feedback to the NDA.
- Promote whole-of-government and whole-of-society approaches: integrate across sectors, reduce silos and promote coherence.
- Support knowledge-sharing, capacity-building and feedback loops: i.e., share lessons learned, best practices, project outcomes and partnerships for scaling up.

2c. Accredited Entities / Implementing Entities

Overall Role: Responsible for the development and implementation of GCF-funded projects/programmes, in partnership with the NDA and national stakeholders.

Key Responsibilities:

- Communicate with the NDA Secretariat at project ideation stage to ensure alignment with Eritrea's national priorities.
- Liaise with the NDA Secretariat to obtain a no-objection letter prior to GCF submission.
- Develop proposals and manage implementation in line with GCF's fiduciary, environmental & social safeguard, and gender equality requirements.
- Provide regular progress reports, financial reports and results information to the NDA for onward submission to GCF.
- Facilitate capacity-building and institutional learning at national/sub-national levels.
- Engage with stakeholders (communities, private sector, CSOs) throughout the project lifecycle, ensuring transparency and accountability.

2d. Non-Government stakeholders (Civil Society, Academia, Private Sector)

Overall Role: Ensure meaningful participation of broader society in the climate finance process, enhancing legitimacy, innovation and country ownership.

Key Responsibilities:

- Participate in consultation platforms, sector working groups and decision-making discussions.
- Provide feedback on policy, project concepts, pipeline priorities and implementation outcomes.
- Promote transparency and inclusive decision-making considering gender, youth, and vulnerable groups.
- Support local implementation, community engagement, and knowledge dissemination.
- Contribute technical expertise, practical on-the-ground experience, private sector investment and innovation opportunities.
- Assist in monitoring and evaluation (community level), dissemination of lessons learned and scaling up of successes.

Table Summary of Actors & Responsibilities

Actor	Key Responsibilities
NDA Secretariat	Communication with GCF; stakeholder convening; developing/updating Country Programme & project pipeline; approving DAEs/accreditation; no-objection issuance; pre-screening; coordinating technical review; readiness/institutional strengthening; M&E and reporting; knowledge management.
National Climate Change Steering Committee	Strategic endorsement of national climate finance priorities; inter-ministerial coordination; mobilisation of co-finance; oversight/review.
Technical Review Committee	Technical appraisal of proposals; multi-stakeholder input; knowledge sharing; meetings and follow-up.
Accredited & Implementing Entities	Proposal development & implementation; compliance with GCF fiduciary & safeguard standards; reporting to NDA; stakeholder engagement; capacity building.
Non-government stakeholders (CSO/Private/Academia/Communities)	Participation in consultations; feedback and representation; ensuring gender/social inclusion; contribution of expertise; monitoring and dissemination.

3. Coordination and Communication Mechanisms

- **Inter-Ministerial Coordination:** The NDA will establish routine coordination meetings with line ministries and the Ministry of Finance to ensure integration of climate finance into development budgeting and sectoral planning.
- **Stakeholder Engagement:** Establish a stakeholder engagement procedure to ensure regular consultation with civil society, private sector, and development partners, aligned with GCF's stakeholder engagement policies.

4. Capacity Development and Institutional Strengthening

- Conduct capacity needs assessments for NDA staff and committee members.
- Establish a capacity development plan focusing on project origination, proposal development, gender integration, environmental and social safeguards (ESS), and monitoring and evaluation.
- Promote partnerships with accredited entities and regional institutions for technical backstopping and knowledge exchange.
